

# 50<sup>th</sup> Annual Pacific Northwest Animal Nutrition Conference

## PROCEEDINGS

**PACIFIC NORTHWEST  
ANIMAL NUTRITION  
CONFERENCE**

January 18-19, 2016  
Boise, Idaho

# 50<sup>th</sup> Annual Pacific Northwest Animal Nutrition Conference

## PROCEEDINGS

### Table of Contents

#### **PRECONFERENCE** *Sponsored by Novus*

Diagnosing Common Vitamin and Mineral Abnormalities in Dairy Cattle .....	3
Jeffery O. Hall, Utah State University	
Trace Mineral Recommendations for Dairy Cows: 2015 Version .....	25
William P. Weiss, The Ohio State University	
Trace Mineral Bioavailability: What it means to cow performance .....	33
Heather A. Tucker, Novus	
Measuring and Improving Cow Comfort Across U.S. Regions .....	44
Katie Wood, Novus C.O.W.S. Project Manager	

#### **MAIN CONFERENCE**

Ethics, Values & Science: Finding the Right Mix for Building Consumer Trust .....	68
Donna Moenning, Center for Food Integrity	
Not all variation in feed composition is created equal: Knowing why composition data varies should improve diets .....	74
William P. Weiss, The Ohio State University	
B Vitamins for Ruminants .....	82
Essi Evans, Technical Advisory Services, Inc.	
Gut Health During Diet Transitions .....	89
Anne H. Laarman, University of Idaho	
Heat Stress Success: Managing Heifer Growth .....	97
Amber L. Adams-Progar, Washington State University	
How Nutritionists can Influence Breeding Goals and Cow Size for Improved Feed Efficiency .....	101
Michael J. VandeHaar, Michigan State University	

#### **GRADUATE STUDENT ABSTRACTS** .....

The effect of dietary saturated and unsaturated fatty acid on fatty acid composition of serum, adipose and liver lipid fractions, and serum vitamin content in pre-ruminant calves	108
The effect of aspirin on prostaglandin F <sub>2</sub> $\alpha$ secretion in lactating dairy cows during the luteal phase of the estrous cycle
